
(A) Skeleton-Grounded Latent Action Learning
RGB transitions
skeleton transitions
RGB Encoder
Skeleton Encoder
residual latent
kinematic latent
motion latent
RGB Decoder
RGB reconstruction
Latent alignment
Coss-Modal Swap reconstruction
(B) Action-conditioned World Model Pretraining
RGB Encoder
branch dropout
keep
partial
null
Generative World Model
Generated Robot Video
(C) Action-conditioned World Model Adaptation
RGB Encoder
zero
action adaptation
Robot action
Action Adapter
Generative World Model
Generated Robot Video
